

ASKHAM BRYAN COLLEGE UPDATE 28.04.20

I just wanted to update you on some exciting progress we have made with regards to digitalising our open event experience at Askham Bryan College.

We have organised a **Virtual Open Event Week: Monday 11th May - Friday 15th May**. Starting with an introduction to our college, we will then be hosting a series of Q and As alongside some pre-recorded presentations on all of our courses and support areas. Students will be able to ask questions on their course and other topics such as transport, accommodation, learning support and applying to study with us.

We are setting up the Zoom links for each session and all those interested **must book online** via our **What's On page**:
<https://www.askham-bryan.ac.uk/whats-on/virtual-open-event-1>.

As part of their booking students will receive a link through to our 'Find out More' page: <https://www.askham-bryan.ac.uk/students/applynow/find-out-more>. This is currently being updated with our departmental presentations to accompany our course guides and virtual tour.

Just a final reminder that as a college we are working on some pre-enrolment activities for those who have applied with us and we are determined that no student be affected by the current situation in their transition from school leaver to Askham Bryan College student. Our Admissions Team are still very much welcoming and processing applications.

If you have any questions do let us know – and please stay safe
